

Hi, we're Urbee.

The electric bicycle of Amsterdam.

Starting at €1,-/hour with a business or private subscription. Sign up through urbee.nl and enjoy an introduction rate of -50%. Book a bicycle, go for a ride and when you're done, return your bicycle at the station you started.

URBEE

Enjoy the ride!

HOW IT WORKS

1. SIGN UP

Sign up via urbee.nl and download the Urbee app.

2. FIND BIKE

Find an Urbee e-bike through the app or via urbee.nl.

3. BOOK

Opt for a fixed hourly rate or a lower rate with a subscription.

4. UNLOCK

Find your e-bike and unlock with the received unlock code.

5. RIDE

Enjoy the ride, return your e-bike to the station you started.

6. CHECK

E-bike locked and charger plugged in? Prevent an administration fee.

Introduction rate €2,-/hour and €15,-/day, from €1,-/hour and €7,5/day with a subscription.
For more info on business and private rates, go to urbee.nl.

FASTER AND CHEAPER

Save time and costs on traveling and parking.

LIVEABLE CITY

Reduce emission and contribute to a more liveable city.

HAPPY AND HEALTHY

Being active and outdoors.

READ BEFORE YOU RIDE

UNLOCK

Enter the 6-digit code to unlock the e-bike. Remove the plug chain, wrap it around the seat and plug it back into the lock.

Entered the wrong digits or lock doesn't open? Try again, make sure the lock can move freely.

SUPPORT

Maximum support of the e-bike is 25 km/h. Press -button to turn on the display. To change the level of support, press + or - (level 0 to 8).

Use level 7 and 8 only with experience and not when slippery.

LOCK

Remove the plug chain from the lock. Press a button and close the lock. Secure the chain around a fixed object and insert the plug into the lock.

Always use both lock and plug chain. At some guarded Urbee stations, with no possibility to attach the plug chain, just the lock is sufficient.

DEFECT

Always check your e-bike before use. In case of a defect, the 'report a problem' button in the app will assign you a new bicycle.

Roadside problem, can't ride back to the station? Call customer support: **+31 85 06 53 428**.

LIGHTS

Switch on the display. To turn on the light, press -button again.

WALK ASSIST

Use walk assist to walk up slopes. Press and hold the + button.

USB CHARGER

A USB-port is placed on the bottom of the display.

RANGE

With a fully charged battery you can cycle 50-80 km with support.

HEIGHT SEAT

Easily adjust the saddle to your body height as marked on the seat tube.

BICYCLE BELL

The bell is integrated in the left hand brake.

PAY ATTENTION!

Walk your bicycle? Turn off the support to prevent the bicycle from riding.

PAY ATTENTION!

Standing still at a traffic light? Turn off support or use the left-hand brake.

PAY ATTENTION!

For the first time on an electric bicycle? Wet or slippery road? Use support only up to level 6.
